

Your Community. Your Education. Your Career. OUR Future.

YOUR \$PONSOR\$HIP BENEFIT\$ OUR COMMUNITY

- **ECONOMY** - An essential part of the Inland Empire economy relies on the continued success of manufacturing, which is dependent on innovation... and that innovation is driven by a diverse talented workforce **that includes women!** *Women are largely underrepresented in the manufacturing industry, at all levels!* Supporting our movement supports our mission to empower and inspire our women makers AND highlight career pathways into this industry!
- **NETWORKING** – Our Inland Empire Women In Manufacturing (IEWim) event attracts highly influential manufacturing industry folks and resources that the community wouldn't otherwise know about, or in many cases the means to easily talk to, or find. Having like-minded business owners visible is a benefit for them AND for our youth interested in a manufacturing career pathway. Our event encourages local networking opportunities & inspirational connections!
- **JOBS** – We need to strengthen our youth-to-work pipeline in the Inland Empire! Our event will bring awareness to high-quality youth employment opportunities! Help us connect young people to employment opportunities, job skills, and training to help fill the job shortage we face in our region (and nation). The manufacturing industry offers good paying jobs that support our youth AND their families! Our annual IEwim event allows our makers to market themselves and their open positions!
- **SCHOLARSHIPS** – Our event has established scholarships to open doors for females passionate about advancing their manufacturing career paths, yet do not have the financial means to excel on their own. Our goal is to provide FIVE young ladies a scholarship at our event. To date we have raised over \$14K!

Our event is **FREE!** Our lunch is **FREE!** Don't miss out... **RSVP TODAY!**

Would you like to showcase your manufacturing company with a **FREE** booth? If yes, contact us at:

www.IEwim.com

Thank You!
